

A DIFFERENT KIND OF CARPENTRY

The Carpentries, and giving researchers the skills they need to tackle large data and computing challenges

 Feel free to tweet or post slide photos from this talk

Sarah Stevens

Slides re-mixed from Christina Koch

What are The Carpentries?

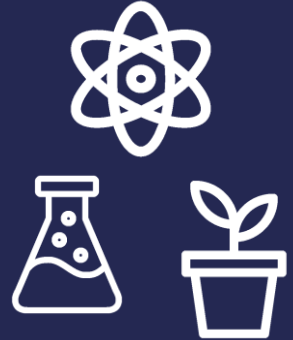

International
organization +
community of
volunteers

that develop
lessons, train
instructors +
organize
workshops

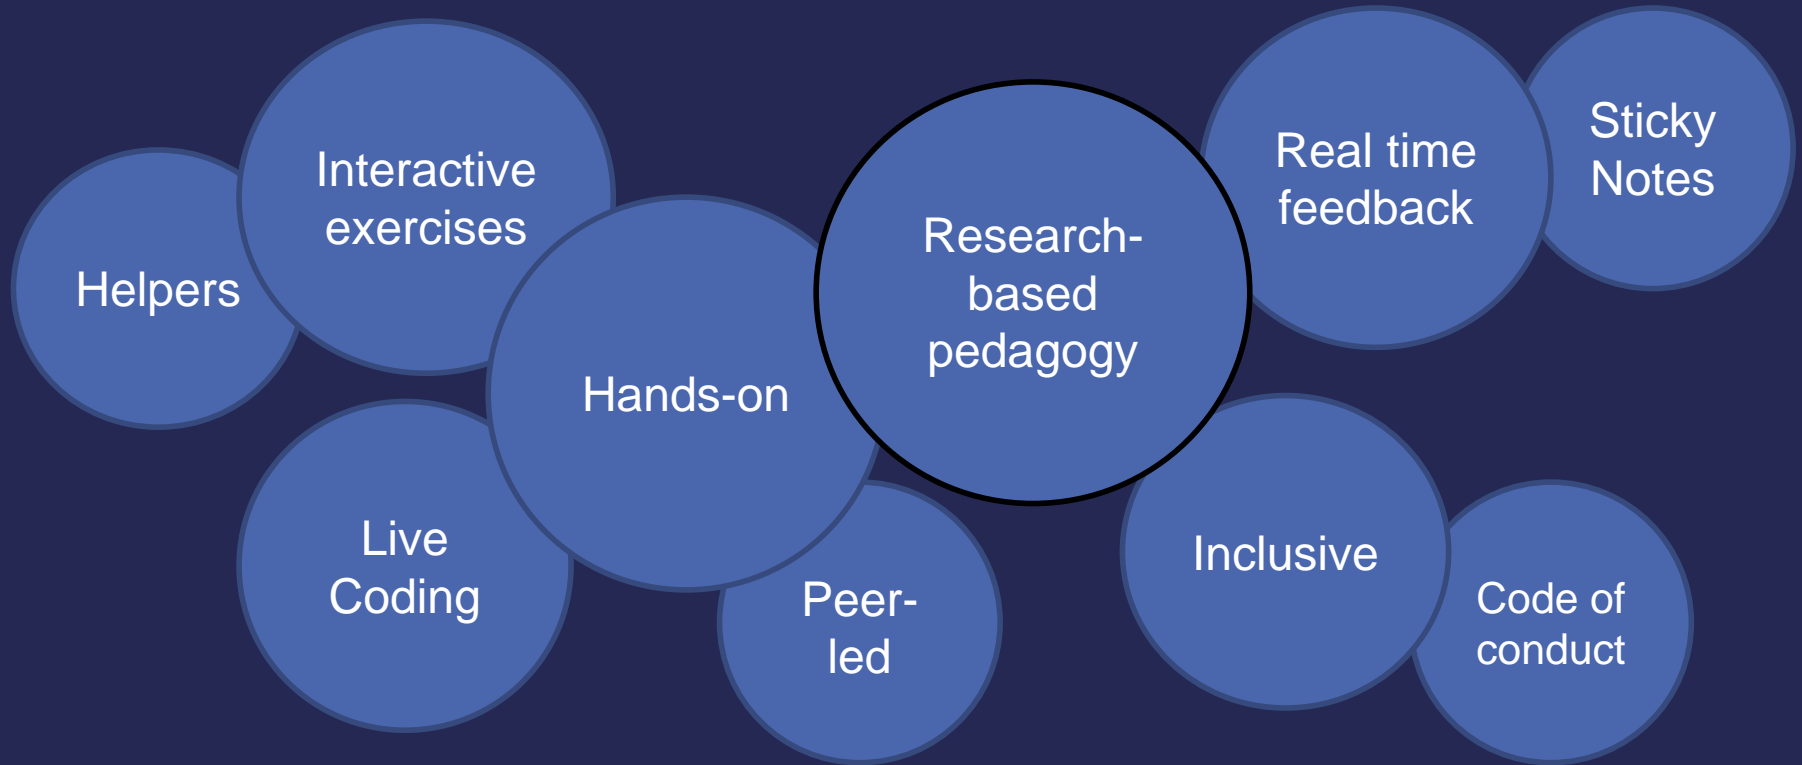

in **data**
management
and **software**
development
best practices

For and by
researchers
across
disciplines

Carpentries Philosophy: Method

Midwest Carpentries Community

- Regional group of organizations hosting and teaching Carpentries Workshops
- We can help each other with ...
 - Self-organizing workshops
 - Finding volunteer instructors
- We can ...
 - Share experiences and advice
 - Share instructor training and workshops
- Midwest Big Data Hub support
